STATE LIBRARY.

[Oct.

The account rendered in the previous pages shows that for the year covered by this Report, the amount received by the trustees for the increase of the library was as follows:—

Balance on hand October 1, 1866, . . . .	\$419 74
Balance of appropriation for 1866, not drawn, . .	800 00
Annual appropriation, in part, for 1867, . . .	1,500 00
Proceeds of duplicates sold, . . . . .	3 55
	<hr/> \$2,723 29

Expenditures for the year—

Books, pamphlets and periodicals, . . . .	\$2,276 51
Binding and stationery, . . . . .	233 17
Library cards for catalogues, . . . . .	33 91
Freight, express charges, postage, &c., exclu- sive of exchange and commissions, . . . .	56 21
Balance to new account, . . . . .	123 49
	<hr/> \$2,723 29

The means remaining at the disposal of the trustees for current use, or till the next appropriation will be available, is the balance on hand, (\$123.49), and the balance of the last annual appropriation, (\$800), not yet drawn from the State treasury, making a total of \$923.49, for expenditures during several months to come.

A larger number of foreign works has been imported for the library than in any previous year. They were mostly recent publications, many of which had not been reprinted in this country, and were purchased by the agent in London, whose drafts in payment, through Baring Brothers & Co. have been honored to the amount of \$1,004.71, including cost of exchange and commissions. As foreign books imported for public libraries are exempted from the payment of duties, and as the expense of reprinting them in this country is enhanced by the increased cost of labor and materials, it has been a matter of economy to import foreign works rather than to purchase American editions of the same works if executed in a similar style of excellence.

Additions made during the year are as follows:—

	VOLUMES.
By purchase, . . . . .	615
domestic exchanges, . . . . .	362

donations, . . . . .	118

Donations have been made to the library by the following persons:—Henry Wilson, Charles Sumner, Robert C. Winthrop, Louis Agassiz, Edward Jarvis, Gen. Barnard, Admiral Davis, Joseph White, Paul A. Chadbourne, Oliver Warner, H. T. Parker, London; O. Blunt, Supervisor of N. Y.; John Clark, A. G. Cooledge, T. C. Amory, Emory Washburn, W. I. Loomis, David Pulsifer, Mrs. Horace Mann, L. L. Abbot, W. E. Woodward, George Bemis, Charles Brooks and by several others; also by the Smithsonian Institution.

Catalogues, reports, &c., have been received from various libraries, associations, railroad corporations, &c.

Valuable books and pamphlets have also been received by exchanges with the Buffalo Historical Society and with the Chicago Historical Society.

The States recently insurgent have all resumed inter-state exchanges, except Florida. State publications have been received from all the other States in the Union and from the Territories, within the year, except from Mississippi, Kansas, Michigan, Wisconsin, Minnesota, Colorado, Washington, New Mexico and Utah. Some of the States have only a biennial session of their legislature, and therefore their Laws and Documents are not received annually.

The extensive changes made during the summer and autumn in the interior arrangements of the State House, rendered it

necessary to close almost the entire edifice to the public. Admission was allowed only to those having business with the departments which had not already been temporarily transferred to other buildings. These changes, and the restrictions, and obstacles to access occasioned by them, have interrupted the regular operations and free use of the library. It has, however, been open every day, and some one has been in attendance daily for the transaction of special business, except for a short time, when access was wholly obstructed and even dangerous. Facilities for consulting the books have been afforded in all cases when admission could be had, or was not prevented by the operations of the workmen. On account of the temporary removal of the ordinary means of entrance, and the great and constant annoyance arising from the presence and proximity of various mechanical labors, it was found expedient for the assistants to perform a large part of their clerical duties at their places of residence. Thus the amount of work usually done in the library has been performed, except that arising from attendance on visitors. The usual additions by exchange and purchase have been received and entered, catalogues kept complete, exchanges continued and acknowledged, the regular correspondence maintained, and the required annual reports prepared.

One pleasant result of the changes and annoyances above referred to, is the improved and beautiful appearance of the library-room, through the judgment and taste of the commissioners, and the skill of the mechanics employed.

Respectfully submitted.

JOSEPH WHITE, *Librarian.*
